Hannah: No, I've got two brothers. Jem and Alex.

Aurelia: Really? ... and ... how old is Alex?

Hannah: Alex and Jem are twins, they're both 15.

Aurelia: 15, mmm ... and does Alex look like Jem?

Hannah: They're exactly the same! They're both tall and thin. They've both got short brown hair, green eyes and big ears!

Aurelia: They're not big, I think they're cute. And ... has Alex got a girlfriend?

Listen to the weather forecasts.

What will the weather be like in each part of the country?

Circle the correct answer.

Example:

The east: rainy, foggy, fine, snowy

- 1 The west: rainy, windy, foggy, thunderstorm
- 2 The north: sunny, rainy, thunderstorm, foggy
- 3 The south-east: windy, frosty, sunny, showers

Tapescript: Weather forecast

- 1 *Here's the weather forecast for tomorrow. I'll start with the west. Here it's going to be hot with temperatures up to 26 degrees and you might see some thunderstorms in the afternoon. The east and half of the country will be fine and dry with a lot of sunshine. But it will be windy and that wind will be from the north. So temperatures will only reach about 19 or 20 degrees. That's it. Have a good day.*
- 2 *Good morning. Well, it's been a nice day today, but we're going to see a big change in the weather tomorrow. I'll start with the north and I'm afraid that if you go out tomorrow, you'll need your umbrella. It's going to be a very wet day with some heavy rain. The south-east should be dry, but it will be dull and cloudy. The south-west will see some sunshine and some showers. It will be cool everywhere.*
- 3 *Good morning. We're going to see a very different weather in different parts of the country today. For today's forecast I'll start with the south-east. Here it is going to be another very cold day. Temperatures will go above freezing all day. It will be frosty everywhere and there might be some mist and fog in some places, so please be careful if you're driving. In the north-west it's going to be a very different story. Here it will be very stormy with strong winds. Those storms will bring snow to most places, so if you don't have to go out it will be better to stay at home. That's all for now. Have a very nice day.*

Mari: *I like to cook, more specifically, I like to cook for people. I like to have people over and eat with people. I don't really like to eat alone, so I don't like to cook for myself. I like to cook for other people, but more than cooking I like to bake.*

Ron: *Baking. What do you like to bake?*

Mari: *Cookies and brownies and cake.*

Ron: *That sounds very good. I would like to eat one of your brownies. OK, next, are you a good singer?*

Mari: *I am terrible at singing. I don't like going to karaoke and I don't like to sing. I like music, but I can't sing for my life. I, yesterday, or I guess in class it was a student's birthday and I made my students sing Happy Birthday but they wouldn't start so I had to start them off singing and my voice was so bad, they started laughing at me, so I'm just a terrible singer.*

Ron: *That's funny. OK, next. Are you a good dancer?*

Mari: *No, I'm not a good dancer. I can't dance at all. I used to when I was younger, my parents would enrol me in ballet classes, so I did ballet for six years but I am not very good at dancing.*

Mari: *I was a good student because I'm a dork. No, yeah, I think I was a good student. I tried hard in all of my classes. I always did my homework. I was always focused and took notes during class. I always really liked learning and so I think that's why I was a really good student.*

Ron: *And athletics? Were you a good athlete, and are you a good athlete now?*

Mari: *That's a tricky question. I like sports, and I like playing sports. I don't think I'm a very good athlete, probably compared to you, I'm probably not, but I really enjoy playing sports. In high school, I played soccer. I ran cross-country. I played ice-hockey and a little bit of lacrosse.*

Ron: *And which one was your favourite sport?*

Mari: *My favourite sport was ice-hockey.*

Ron: *Interesting.*

| 2 | Some people can sleep well with a television on. | True / False |
| 3 | It is good to turn your mobile off when you go to sleep. | True / False |

Tapescript: A good night's sleep

Host: *At exam time it is important to sleep well. Today we have Doctor Baker with us in the studio and he is going to give us five top tips for getting a good night's sleep. Welcome to the show, Doctor Baker.*

Dr Baker: *Thank you. It's great to be here. Let's start with tip one. Don't go to bed with the television on. Some people think they can sleep well with the TV on, but the noise and lights mean you don't really sleep well, so turn it off!*

Tip two: *Don't think too much before bedtime. Do your hardest homework earlier in the evening. Do easier homework later. If your brain is too busy and full of ideas it takes longer to get to sleep.*

Tip three: *Don't play video games for an hour before you go to sleep. They also make your brain too busy and active.*

Tip four: *Turn off your cell phone when you go to bed. What is so important that it can't wait until the morning? If possible, leave your phone in another room.*

Tip five: *Play music if you like. But don't play it too loud. Turn the sound down low.*

Host: *Thank you, Doctor. That is very useful advice for our young listeners.*

Listen carefully about the fundraising activities and write (T) if the sentences *True* or (F) if *False*.

Example:

Simon is going to sell raffle tickets. **T**

1 The secretary is going to dress up as a clown. _____

2 Flora and Sandy will sell drinks and crisps. _____

3 The school will buy four computers with the money. _____

Tapescript: Fundraising day

Now listen carefully, and make sure you all know what you have to do at tomorrow's fundraising day! Bill and Anna, you will be at the gate to take the entrance money, when people come in. Each adult has to pay 50p, but children get in free. Simon, you can go there too, to sell the tickets for the raffle, one pound for five. Now, the car washing! Jules, you are in charge of this and Greg will help you. I know Greg washes his Dad's car every week, so he's the best choice. I think the photography stand will be a lot of fun, because people will enjoy having their picture taken with the headmaster in his clown costume. Alec is in charge of this stall and he is going to bring his own camera, because he knows exactly how to use it. And Alec don't forget it-like you usually do with your homework!

Like last year, snacks will be on sale but only soft drinks and crisps, nothing hot. I will bring these in my car and Flora and Sandy will sell them.

One last thing! We still don't have enough second-hand books for the bookstall. So, tomorrow morning, I want all of you to bring me an old book that you don't want to read again.

I'd like to thank you all for your hard work so far. We are hoping to buy three computers for the school in Africa, and we need one thousand two hundred pounds to do this. So let's hope that when Mr Matthews counts the money we will have enough. Now, does anyone have any questions?

Listen to Alleta talking about places to visit and decide if the statements are True (T) or False (F).

Example:

On Table Mountain there are around 2,200 species. T

1 Tugela Falls are 850m tall. _____

2 There are many active volcanoes in Africa. _____

3 Cheetahs can run 80 kph. _____

Tapescript: Places to visit

South Africa is a really fantastic place to visit. It's one of the most beautiful and diverse countries in the world. We have deserts, grassland, mountains, tropical forests...There aren't many countries in the world where you can see all these amazing things. But if you only have a little time, there are four places you really must visit. One city that a lot of people want to visit is Cape Town. It's a beautiful, beautiful city...by the sea. And you can see the famous Table Mountain, where you will find a lot of different varieties of plants. In fact, there are around 2,200 species of plants...that's more than the whole of the UK.

The Tugela Falls are in the Royal National Park in the east part of the country. The Tugela falls is the second highest waterfall in the world, and the highest in Africa. The water falls 850 metres-it's incredible to see!

Of course in South Africa we have a lot of amazing wildlife and the Kruger National Park is the place to see it. We have a huge number of bird species-more than 500 in fact-and nearly 150 animal species. And you can find elephants, rhinoceros, zebra. My favourite is the cheetah, the fastest animal in the world. Did you know a cheetah can run at 100 kilometres per hour? There isn't much chance of winning that race.

There aren't any active volcanoes in South Africa, but there are a few dormant volcanoes; for example the Salpeterkop volcano. It's 66 million years old, and it's not officially extinct. There are just a few of the fantastic places you can visit in South Africa. There are many more that I don't have time to tell you about. The best thing is to come and see us here in South Africa. You are very welcome.

Listen to Alison talking about holidays and decide if the sentences are True (T) or False (F).

Example:

Alison was a child in the 1970s. T

1 Alison used to spend her holidays in Scotland.

2 People travelled more for their holidays then.

3 She said it was like living in Spain.

Transcript: Alison

When I was a child, back in the 1970s, we used to spend our summer holidays on the south coast of Wales. People didn't use to travel abroad so much then and British holiday resorts were always very crowded. The weather was always lovely. It must be thirty years since I last played on those beaches, but I can still remember the hot sun and the blue skies as if it was yesterday. My best memories are from 1976, the year of the great drought. It didn't rain for the whole summer. It was like living in the south of Spain and it was wonderful for us children. We used to spend all our time outside in the parks, which got drier and drier. I suppose it was a terrible time for farmers and people who worked on the land, but we weren't worried about that. Ah, happy memories!

WHERE'S ROXY?

Read the text and decide if the statements are True (T) or False (F).

Chloe has an unusual pet which isn't popular with all the members of her family. When Chloe arrives home from school, she always makes a cup of coffee and then goes upstairs to her bedroom. This is her favourite time of day. The house is quiet and she can play with her pet rats. Yes, that's right, pet rats! Chloe has got two of them. Their names are Zena and Roxy and they live in a cage in Chloe's bedroom. Chloe knows that most people don't like rats or they think rats are dirty. A year ago, Chloe didn't like rats either.

Then, one day, her friend Martin showed Chloe his pet rats and Chloe saw how intelligent and affectionate they are. "If you can have cats, dogs or hamsters as pets, then why not rats?" she thought. When one of Martin's rats had babies, Chloe asked her mum if she could have two pet rats for her birthday present. Her mum and dad didn't like the idea, but then Chloe got an excellent school report and they decided to give Chloe the present she wanted. "There's one very important rule," said Chloe's mum. "The rats live in your bedroom and they never go to other rooms, especially not the kitchen!"

In her room, Chloe opened the cage. First she picked up Roxy and put her on the floor. Then she picked up Zena and put her on her shoulder. Roxy loved to explore. She climbed furniture and went under Chloe's bed. Zena was quieter and liked sitting on Chloe's shoulder while Chloe sent messages to her friends or read a book. Someone knocked on the door. "Hi, Chloe," called Mum. "Are you there?" "Yes, Mum," said Chloe. "Come in." "I'm going to my aerobics class. I'll be back at seven o'clock. Dad's on his way home. He's making pasta tonight." "OK, Mum. See you later," Chloe replied. Mum closed the door. Chloe put Zena back in the cage and called for Roxy. "Roxy?" said Chloe. "Roxy, where are you?"

Roxy usually came when Chloe said her name. Chloe started to look for her. Where could Roxy be? "She must be here somewhere," thought Chloe, "but Mum was here and Mum opened the door! Oh no! Roxy could be in the bathroom or living room ... or even the kitchen!" Chloe started to search the house. First, she looked in her parents' room and the bathroom but Roxy wasn't there. Next, she went downstairs and looked in the kitchen. She opened cupboards and drawers, calling Roxy's name all the time. She looked under the table and behind the fridge. She looked in the washing machine too, but Roxy wasn't there. "Hi, Chloe!" said Dad as he came into the kitchen with a bag of tomatoes and pasta. "Are you OK?" he asked. "Yes, I'm ... I'm ..."

Chloe wanted to say "I'm fine", but she wasn't fine and she needed Dad's help. "Dad, I've ... I've ... I've lost Roxy!" she said. "I see," said Dad, putting down the shopping bag. "Don't worry, we'll find her. She can't be far!" Chloe and her dad looked all over the house but they couldn't find Roxy anywhere. Chloe went upstairs to look in her room for the third time.

Then, she heard a key in the door and Mum calling, "It's me, I'm home." "Oh, no!" thought Chloe. "Mum's going to be angry!" She decided to stay in her room and wait for Dad to tell Mum about Roxy. Then Dad laughed and Mum called out, "Chloe, come downstairs." Chloe went downstairs and there was Mum with a smile on her face and Roxy on her shoulder. "Oh, Mum, you found her!" said Chloe. "Where was she?" "When I arrived at the gym," said Mum, "I opened my bag and found Roxy. She was sleeping in one of my shoes." "Oh, sorry, Mum. Are you angry?" asked Chloe. "No, I'm not angry. I picked her up for the first time and do you know what? Now, I think I like rats too!"

In April 2007, a 16-year-old boy named Charlie McDonnell was studying for his exams. But he was bored, so he turned on his laptop computer. He found a website called YouTube and watched a video of another teenager like him. The teenager was sitting in his bedroom and talking about how bored he was. "I can do better than that!" thought Charlie. So he used his laptop and webcam to make his first video, and posted it on YouTube under the name Charlieissocoollike.

YouTube is now the world's largest video website. More than 3 billion videos are watched every day on YouTube and a large number of those are video blogs. These are simply videos of people talking to a camera about their lives or things that interest them. Two days after Charlie posted his first video, he had 150 subscribers, so he decided to make more videos. He soon became quite popular. A few months later, Oprah Winfrey, the famous American TV host, showed one of his videos called "How to Be English" on her programme. In this video, Charlie wears a suit and tie and talks in a funny accent. He shows viewers how to make a cup of tea. Charlie suddenly became very famous in the United States too. To say thank you to all his fans he made a video called "Challenge Charlie", asking people to suggest funny or difficult things for him to do in his videos.

Challenges included drinking tomato ketchup, wearing all of his clothes at once and painting himself purple! Charlie is also a singer and songwriter. His most popular videos are of him singing and playing the ukulele. In "Duet with Myself", he uses special effects to sing a duet with himself about what a boring person he is. This has now been watched over 7 million times! Charlie's best friend, Alex Day, is also a musician and video blogger. They met through YouTube and started a band together. The band is called Chameleon Circuit, and they have made two CDs and performed several concerts. With more than one and a half million subscribers, Charlie is the most popular video blogger in the UK. He has now made enough money to buy a house with his friend Alex.

But what is the secret of his success? "I make the kind of videos that I want to watch," he says. And when asked how fame has affected him, Charlie says, "I still sit in my bedroom talking to my camera, and that's what I want to do." Oh, and how did Charlie do in his exams back in 2007? Well, he passed with nine A grades and one B! He says that he wants to go to university in the future but decided to try and make a career on YouTube before that. So, far, it's going very well!

WONDER

Wonder is a book about a boy called Auggie who feels ordinary but looks very different. What's *Wonder* about?

Wonder is the story of a ten-year-old boy who lives with his parents and sister in New York. August, or Auggie, is an ordinary boy in many ways. He rides a bike and likes playing with his Xbox. But Auggie has deformities of the face and looks very different from other children.

At the start of the book, he tells us "My name is August. I won't describe what I look like. Whatever you're thinking, it's probably worse." In the street, people look at Auggie and his appearance shocks them. Auggie has never been to school because he has spent a lot of time in hospital. His mother teaches him at home, but now he's ten, she thinks he should go to school. At first, Auggie doesn't want to go. He worries that other students will look at him and say horrible things. But then he visits a school with his mum, he likes the headteacher and decides to go. Auggie's first year at school has good times and bad times. Auggie makes some good friends but other children are horrible to him.

At the end of the year, Auggie goes on a school trip and a frightening event there changes things completely. Is it a good book? *Wonder* is an excellent book. It tells an inspiring story that makes you feel many different emotions. Once I started reading it, I didn't want to stop. It is easy to like Auggie. He has a good sense of humour, so the book has a good mix of funny and sad moments.

But the book isn't just about Auggie. We learn what life is like for his sister and Jack, who is Auggie's friend. *Wonder* is a book about a ten-year-old boy, but it's popular with people of all ages. BIG BANG, BIG CRUNCH

Read the text and decide if the statements are True (T) or False (F).

The universe is expanding and every galaxy is moving away from every other galaxy. To see how this kind of thing could happen, think of a balloon with dots on it. The surface of the balloon is the universe and the dots are galaxies. When you blow up the balloon, the 'universe' expands and the 'galaxies' move farther away from each other.

Astronomers believe that the universe began 15,000 million years ago. There was a 'Big Bang' and everything in the universe was created. Before the 'Big Bang' there was nothing—there was no time and no space. Some astronomers believe that the universe will stop expanding. The galaxies will slow down and then will start to come closer to each other. Finally they will all crash together in the 'Big Crunch', which will be the end of the universe.

- 1 10,000 million years ago the galaxies were closer to each other. _____
- 2 Astronomers think the universe began 15,000 million years ago. _____
- 3 Before the 'Big Bang' there was only space. _____
- 4 All scientists think the universe will end in a 'Big Crunch'. _____

THE BEGINNING OF A GHOST STORY

Read the text and decide if the statements are True (T) or False (F).

It was a warm summer's night in mid-July. The air was still. A bright moon was high in the clear sky. The only sound that young Police Constable Mitford could hear was the sound of his own footsteps. Rayner Street was quiet. There were no lights in any of its windows. Its inhabitants were all in bed and fast asleep.

The young constable looked at his watch. It was half past two in the morning. Suddenly, he felt very unhappy. He had not been a policeman for very long and this was his first patrol alone. Until tonight an older policeman had come on duty with him. Now, P.C. Mitford had been sent out on patrol alone. He had become a real policeman at last. Half past two. At three o'clock he must return to the police station to make his report. After that, he could go off duty. Then he could go home. His first night as a real policeman was ending.

He walked slowly on and watched the street carefully. He had been trained to use his eyes. "A good policeman watches out all the time," they had taught him. P.C. Mitford wanted to be a good policeman, and his careful eyes missed nothing that night. One of the downstairs windows in Number 26 was open. Some garden tools had been left outside the front door of number 21.

"Careless people!" P.C. Mitford said to himself. "They think they are safe in a quiet street like this. They don't think that thieves will cause trouble in Rayner Street." When he was near the top of the street he saw a big white car parked outside Number 3. He made a note of its number – ZZB777X. The doors of the car were all locked and it was parked correctly. "Good," he thought, "at least one careful person lives in Rayner Street."

He stood and looked at the front of Number 3. It was a big comfortable-looking place, but the garden was wild and the door was in need of paint. P.C. Mitford moved on. He had walked a few yards past Number 3 when he heard a noise behind him. He turned round. The front door had opened.

- 1 P.C. Mitford was a very experienced policeman. _____
- 2 Some people in Rayner Street had been careless. _____
- 3 Number 3 was a big house with an untidy garden. _____
- 4 P.C. Mitford was looking at the car when he heard the door open. _____

PIZZA

Read the text and decide if the statements are True (T) or False (F).

The modern pizza was originally invented in Naples, Italy but the word pizza is Greek in origin, derived from the Greek word *pēktos* meaning ‘solid’ or ‘clotted’. The ancient Greeks covered their bread with oils, herbs and cheese. The first major innovation that led to flat bread pizza was the use of tomato as a topping. It was common for the poor of the area around Naples to add tomato to their yeast-based flat bread, and so the pizza began.

While it is difficult to say for sure who invented the pizza, it is however believed that modern pizza was first made by baker Raffaele Esposito of Naples. In fact, a popular urban legend holds that the archetypal pizza, Pizza Margherita, was invented in 1889, when the Royal Palace of Capodimonte commissioned the Neapolitan pizzaiolo Raffaele Esposito to create a pizza in honor of the visiting Queen Margherita. Of the three different pizzas he created, the Queen strongly preferred a pie swathed in the colors of the Italian flag: red (tomato), green (basil), and white (mozzarella). Supposedly, this kind of pizza was then named after the Queen as Pizza Margherita.

Later, the dish has become popular in many parts of the world:

- The first pizzeria, Antica Pizzeria Port’Alba, was opened in 1830 in Naples.
- In North America, The first pizzeria was opened in 1905 by Gennaro Lombardi at 53 1/3 Spring Street in New York City.
- The first Pizza Hut, the chain of pizza restaurants appeared in the United States during the 1930s.

Nowadays, many varieties of pizza exist worldwide, along with several dish variants based upon pizza.

- 1 Historians know who invented the pizza. _____
- 2 The word pizza has an Italian origin. _____
- 3 Raffaele Esposito was the first to prepare modern pizza. _____
- 4 The first pizzeria was opened in New York. _____

COFFEE

Read the text and decide if the statements are True (T) or False (F).

Coffee is a popular brewed drink prepared from roasted coffee beans. Coffee plants are cultivated in over 70 countries, primarily in the equatorial regions of the Americas, Southeast Asia, India and Africa. Once ripe, coffee beans are picked, processed, and dried. Green (unroasted) coffee beans are one of the most traded agricultural commodities in the world. Once traded, the beans are roasted to varying degrees, depending on the desired flavor, before being ground and brewed to create coffee. The two most commonly grown coffee beans are the highly regarded *arabica*, and the less sophisticated but stronger and more hardy *robusta*.

The drink

Coffee is one of the most popular drinks in the world. It is slightly acidic and can have a stimulating effect on humans because of its caffeine content. It can be prepared and presented in a variety of ways. The effect of coffee on human health has been a subject of many studies; however, results have varied in terms of coffee's relative benefit. The majority of recent research suggests that moderate coffee consumption is benign or mildly beneficial in healthy adults.

History

Coffee cultivation first took place in Southern Arabia. The earliest credible evidence of coffee-drinking appears in the middle of the 15th century in the Sufi shrines of Yemen. In the Horn of Africa and Yemen, coffee was used in local religious ceremonies. As these ceremonies conflicted with the beliefs of the Christian church, the Ethiopian Church banned the secular consumption of coffee until the reign of Emperor Menelik II. The beverage was also banned in Ottoman Turkey during the 17th century for political reasons, and was associated with rebellious political activities in Europe.

Economy

Coffee is a major export commodity: it was the top agricultural export for twelve countries in 2004, the world's seventh-largest legal agricultural export by value in 2005, and "the second most valuable commodity exported by developing countries," from 1970 to 2000. Further, green (unroasted) coffee is one of the most traded agricultural commodities in the world. Some controversy is associated with coffee cultivation and its impact on the environment. Consequently, organic coffee is an expanding market.

- 1 Most of the coffee plants are grown in northern countries. _____
- 2 There are two major types of grown coffee beans. _____
- 3 Coffee as a drink was first prepared in Ethiopia. _____
- 4 Coffee cultivation has no effect on the environment. _____

HEALTH BENEFITS OF FASTING

Read the text and decide if the statements are True (T) or False (F).

Fasting is part and parcel of the practices of many religions including, Islam, Judaism and Christianity. Today many are trying to dig up the benefits of fasting. Some people fast for spiritual reasons, while others fast as a way to physically discipline the body. Whatever reasons one might come up with, it has been scientifically proved that fasting has tremendous health benefits. First, fasting is said to play an important role in the detoxification of the body.

Detoxification is a normal body process of eliminating or neutralizing toxins through the colon, liver, kidneys, lungs, lymph glands, and skin. This process starts when fasting. Food no longer enters the body and the latter turns to fat reserves for energy. These fat reserves were created when excess glucose and carbohydrates were not used for energy or growth, not excreted, and therefore converted into fat. When the fat reserves are used for energy during a fast, it releases the chemicals from the fatty acids into the system which are then eliminated through the body organs, leading to the cleansing of the whole body.

Another known benefit of fasting is the healing process that is obvious in the body during a fast. When fasting, energy is diverted away from the digestive system due to its lack of use and towards the metabolism and immune system. The healing process during a fast is made easy by the body's search for energy sources. Abnormal growths within the body, tumors and the like, do not have the full support of the body's supplies and therefore are more susceptible to disappear.

Fasting also leads to a feeling of rejuvenation and extended life expectancy. This might be due to the detoxification effect of fasting. A study was performed on earthworms that showed the extension of life thanks to fasting. The experiment was performed in the 1930s by isolating one worm and putting it on a cycle of fasting and feeding. The isolated worm outlived the other worms by 19 generations, while still maintaining its freshness and youthful physiological characteristics.

- 1 People fast for only spiritual reasons. _____
- 2 One of the benefits of fasting is the detoxification of the body. _____
- 3 The body turns to the fat reserves for energy when fasting. _____
- 4 The experiment on worms was undertaken to prove that fasting leads to the detoxification of the body. _____

SUMMER RAIN

Read the text. Choose and circle the correct answers: a, b or c.

The worst days of any summer are the rainy ones. We spend all year looking forward to nice weather and long, hot days. All of winter, with its dreary gray days and bitter cold, we dream of those endless days at the beach, laying on the sand and soaking in the bright and burning sun.

And then, summer comes, and it rains. As a child, I would wake up to rainy summer days and come close to crying. It wasn't fair. We suffered through months of school and miserable weather for those scant ten weeks of freedom and balmy weather. Any day that I could not spend at the beach or playing ball with my friends seemed like a punishment for something I didn't even do.

On those rainy summer days, I had nothing fun to do and could only sit inside, staring out at the rain like a Dickensian orphan. I was an only child, so there was no one else to play with. My father worked from home, so I was not truly alone, but he could not actively play with me since he was technically at work. It was those days that I would resign myself to whatever was on television or any books that I could find lying around. I'd crawl through the day and pray each night that the rain would not be there the next day.

As an adult, though, my opinion of summer rain has changed. When you have to work every day, summer is not as eagerly anticipated. Mostly, the days run together, bleeding into each other so that they no longer seem like separate entities and instead feel like continuations of the same long day.

Everything seems monotonous and dull, and an ennui or listlessness kicks in. Such a mindset makes you cheer for anything new or different. I spend the winter dreaming of summer and the summer dreaming of winter. When summer comes, I complain about how hot it is. And then I look forward to the rain, because the rain brings with it a cold front, which offers a reprieve—admittedly one that is all too short—from the torture of 100° and humid days. Rainy days are still the worst days of the summer, but summer rain today means positively beautiful—and considerably cooler—weather tomorrow.

1 The passage makes use of language that is

- a) metaphorical.
- b) rhetorical.
- c) formal.

2 According to the passage, summer is different for adults because

- a) rain brings with it cold temperatures for the following days.
- b) the weather is much warmer than it is for children.
- c) they do not get a long time off from work for the season.

3 Compared to how he or she was as a child, the narrator as an adult is

- a) more realistic.
- b) less excitable.
- c) more idealistic.

4 As used in the final paragraph, the word reprieve most nearly means

- a) permanent conclusion.
- b) short continuation.
- c) higher level of pain.

SURFING HOLIDAY

Read the text. Choose and circle or underline the correct answers: a, b or c.

Hi Ellie,

I'm so pleased you can come surfing in August! Paul, Rose and Kevin are coming too, so there will be five of us. We've decided to return to New Sands, because the surf board hire is so cheap there. I'm starting to think about accommodation. We won't camp again after last year! I hated staying in a tent in all that rain!

Kevin wants to hire a caravan. There are some nice ones with 3 bedrooms, showers and cooking facilities. The problem is, none of the caravan parks take short bookings in the summer. The minimum stay is a week. It's a shame because there are several nice parks near the beach.

There's a youth hostel in New Sands. It's the cheapest option after camping, and there's a big kitchen and dining room where we can cook. The problem is, accommodation is in dormitories and I don't really want to sleep with strangers.

There are a few guest houses in New Sands. Some have triple rooms, so we'd only need to book two rooms. They're not expensive, but we wouldn't be able to cook there. We'd have to eat out at restaurants, or eat sandwiches for every meal! We'll have to book soon if we choose that option, because many guest houses are already full. The hotels in New Sands are far too expensive, even though I'd love to stay at the Sunrise Pavilion with its rooftop pool!

1 Last year the friends stayed in a

- a) caravan.
- b) tent.
- c) youth hostel.

2 Natalie doesn't want to stay in the youth hostel because

- a) it is too expensive.
- b) she doesn't want to share with people she doesn't know.
- c) it does not have any self-catering facilities.

3 Natalie chose this cottage because

- a) it is cheaper than the other cottages.
- b) everyone can sleep in a different room.
- c) it allows people to stay for less than a week.

4 The problem with the cottage is

- a) its size.
- b) its location.
- c) its price.

FINALLY 16!

Read the text. Choose and circle or underline the correct answers: a, b or c.

You're 16 and finally you can leave school! But don't just run for the exit. You need to think carefully about what to do next. If you want a professional career, you will need to go to university and get a degree. To do that, you need to stay at high school for another two years. But you needn't stay at the same place. There are several options in the district of Northacre.

St. Leopold's School has the best pass rate of all the high schools in the district. It offers a wide range of subjects in the humanities and sciences. St Leopold's is, of course, a private school, so may be too expensive for you. But don't worry, there are several other options if you want to follow the academic route. Knowle Grammar School is a state school, so there are no fees, and it has excellent tuition and facilities. It is a boys' school from the ages of 11-16, but from 16-18 it is co-educational. But it is selective, so you'll have to pass an exam to get in.

If you're interested in going into Business, check out Wyle River Academy. This school specialises in subjects like Business Studies, Management and Economics. If you prefer the arts, look at the courses on offer at Northacre College. Here you can study woodwork, art, textiles and much more.

Northacre College also offers a wide range of vocational qualifications. You can do a 1-year certificate or a 2-year diploma in subjects like electrics, plumbing, roofing and hairdressing.

If you'd prefer to work outdoors, look at Milldown College, where there are courses in Farm Mechanics, Land Management, Animal Management and much more. A final option is to get an apprenticeship with a local or national company. You will get on-the-job training, gain certificates or diplomas and start earning straight away. But be warned—places are limited! Find out more at the Jobs Fair on 26th May at Northacre College.
